1. In answer to your memorandum of 13 April 1953 concerning [REDACTED], in our opinion there is no legal objection to returning him and his family to the United States after he has served an additional fourteen (14) months overseas.

2. His recent return to the United States for separation from the service and conversion from a [REDACTED] to a [REDACTED] was not PCS but TDY, as far as the Agency is concerned. Therefore, he may be credited for the ten (10) months he has already served overseas as a [REDACTED] for the purpose of computing his two-year tour of duty overseas.

3. [REDACTED] will not, however, be entitled to home leave at the end of the additional fourteen (14) months since he was not accruing home leave during his service as a [REDACTED]
